CodeRED Weather Alert

The City of Garland has added automated severe weather warnings to its CodeRED telephone notification system.

These notification calls will be launched as soon as the National Weather Service issues a severe weather warning, providing critical preparation time when severe weather threatens.

Whether you have already registered for CodeRED or are registering for the first time, you must "opt-in" for the automatic weather warnings. To do so, visit GarlandTX.gov, click on the CodeRED icon on the left side of the page and follow the prompts.

For customers without access to a computer or internet service, complete the form below and mail to: Dorothy White, City of Garland, P.O. Box 469002, Garland, TX 75046-9002.

When sirens sound...

Seek Shelter. Seek Information.

The City of Garland has an outdoor warning system comprised of 16 sirens paired with LED lighting located in strategic locations throughout the city. This system is designed to warn citizens who may be caught outdoors during an emergency by providing an audible tone and flashing LED lights.

When the sirens sound, everyone should immediately seek shelter in a sturdy building and seek additional information about the emergency conditions. It is important to remember that the system will be used to warn residents about all types of hazards—not just weather. Activation of the system means danger is imminent and immediate protective actions should be taken.

To learn more about how to protect yourself and your family from hazardous conditions, visit Garland-OEM.com or KnoWhat2Do.com.
